50190061

Hi Paul,

The Tusher petrified wood project has been inventoried for cultural resources and a report will be forthcoming. There are no cultural resources within the proposed activity areas, however on the ridges surrounding the project there are eligible sites which will not be impacted with this proposed undertaking. If in the future expansion of the project is requested, at that time we would have to re-visit the project area and make sure that eligible sites are not going to be impacted. Sincerely,
Donna
